

Oregon Coast Education Program

Summer Workshops for 3rd-8th grade educators

June 19-21, 2013 in Charleston, Oregon | June 26 - 28, 2013 in Newport, Oregon

Join the Oregon Coast Education Program for a FREE 3-day workshop in some of Oregon's most outstanding coastal settings along the central and southern Oregon coastlines. Participants will explore through hands-on learning while discovering how to best incorporate outdoor field experiences into your classroom. We will share teaching modules designed to provide teachers from coastal and non-coastal areas of the state with tools, curriculum resources, and techniques for linking the aquatic world from watershed to the coast and ocean.

The Oregon Coast Education Program (OCEP) works with Oregon educators to engage students in **Meaningful Watershed Education Experiences** designed to involve classes in stewardship actions through a project-based learning model. Participants will engage in a variety of outdoor based coastal activities through a workshop designed to model the **Preparation, Action, and Reflection** phases that are integral to best practices in field-based education.

For more information on the Oregon Coast Education Program and to register please visit us on the web! www.pacname.org/OCEP/ocep_about.shtml

Participants will receive:

- ✓ Meals and lodging for the duration of the workshop (dorm style lodging)
- ✓ Coastal Education Kits with teaching materials from OCEP institutions
- ✓ Access to a professional learning community of OCEP educators

Educators who participate in and complete this workshop are eligible to receive:

- ✓ Funding to support field experiences and stipend with a completed Coastal Education Plan
- ✓ Continuing education credits through Portland State University (2 credits for \$161, cost not covered by OCEP)
- ✓ Continuing support from OCEP educators to assist with field experiences in the 2013-14 school year

This workshop is open to all 3rd - 8th grade Oregon educators teaching integrated subjects including science, although preference will be given to partner or team teachers from the same school. Both workshops will begin on Wednesday at 8am and wrap up on Friday at 4pm. Lodging is provided Tuesday night.

Registration now available and limited! Please visit
